Thank you for interest in the Atlanta Guitar Works School of Lutherie Fretted Instrument Repairs and Acoustic Building workshops.

The guitar building and repair workshop is an intensive two-week long program of study. Classes meet Monday through Saturday from 10:00A.M. until 6:00P.M. You will have the opportunity to build 1 acoustic guitar if taking the build course. The guitar is constructed from scratch, with very little pre-made parts. You will learn and practice essential guitar repair and construction techniques. Bring your fretted instruments to repair if you are taking the repair class.

The class is taught hands-on. Demonstrations, presentations and printed materials are provided as reference. Occasional field trips and guest lecturers provide additional instruction.

Atlanta Guitar Works is a private course. While we cannot guarantee job placement, we do help qualified graduates find employment. Documentation of your guitar construction and repair work will also serve as a resume for graduating luthiers.

The cost of the program and housing at the Luthier Lodge is \$3,500. If no lodging is needed the cost is \$3,250. A non-refundable deposit of \$350 is required for registration/bench reservation. Tuition payment is due 30 days before the start of class. Additional materials costs will vary due to the wide range of options such as wood selection, electronics, cases, etc. Cost of materials usually range from \$400 to \$800+. You will have access to shop tools. Transportation and food are not included. Classes fill quickly. Please register early.

If the class you apply for is full your deposit will be returned or applied to a future class. If you have questions, please contact Brian Malone 404-245-4527. We are looking forward to having you join!!!
